Organized Project Management

SUMMARY

I am a Computer Science major with a specialty in project organization and database management. I am interested in web development and have experience in working in front-end and back-end development projects.

WORK EXPERIENCE

OPERATIONS OFFICER

UX Society

2024 - 2025

In charge of overseeing the community projects to make sure of efficient and smooth running workflows; main role is ensuring that projects are organized and properly documented.

QUALITY ASSURANCE INTERN

Manila Observatory

June 2025 - July 2025

In charge of checking the validity of observation data collected by automated weather stations; this also alerts observers for any faulty stations that need maintenance or repair.

OTHER NOTABLE EXPERIENCE

BACK-END DEVELOPER ; DJANGO

Finals Project with Sample Client

- Administrator's view
- Mock-up of database organizations

FRONT-END DEVELOPER ; DJANGO + HTML

Hobby Site Project

- Articles section
- Django, with some database management and HTML templating
